

PARTS WASHER CLEANER

Impact-A Parts Washer Cleaner is a heavy duty premium degreaser, designed to penetrate and remove oil, dirt, baked on grease and heavy grime from

bearings, machinery parts, industrial equipment, mechanical and non mechanical components.

Key Features

- Can be used in any industrial, agricultural, domestic, automotive, marine, workshop and repair shop settings
- Deep penetrating action
- Will not affect rubber, plastic and glass
- Breaks down baked on grease and grime

Directions For Use

- If using a parts washer tub, pour the cleaner into the tub and apply cleaner to parts that need cleaning, either by brush or by immersing the part into the fluid.

It can be used as a spray, directly onto engines, gear boxes or large parts that are hard to remove or can't fit into the parts washer tub.

If using the product in this way, please consider the environment and contain the cleaner so that it doesn't get washed down the drain, or leach into our waterways.

Do not mix with water or any other chemicals, use as supplied by the manufacturer. As this product is flammable, make sure the product is not exposed to something that will ignite it, when applying, or when lid is removed.
